OUR Corporate Partners:

Calltree Automation Services

Our automated cloud based **callertree** services to Industry ensures Business Continuity, catering to Risk Management and Disaster Recovery, through a reliable user friendly web based mobile optimised application.

Dear Subramanian & Team:
We would like to place on record our appreciation on the responsiveness and professionalism shown during first run of automated call tree services availed by us. Also would like to highlight few points, which has overwhelmed us during the first run: Modifications in the Recipient list, Message content & Formatting style in the last moment was handled very well with awesome support.

Client Testimony

Senior Vice President – Risk Management & Audit
CAMS (Computer Age Management Services Limited)

Some of the Business Benefits

- Effective communications during emergency situation with very minimal manual effort
- Reducing time to activate COB (Continuity of Business) avoiding loss of revenue during contingency
- Helping the organisation to be complaint with ISO27001
- Customer trials to ensure the reliability.

📍 For your FREE mock implementation and demonstration

📍 For your Automated BCP mock drill implementation

AI/ML & Industry 4.0 Services

Jayvish technologies, an AI&ML & industry 4.0 consultancy services emerged out of a decade long experience of Sri Kailash Controls through its international industrial automation partners, also with the technical tie-up from IEEE, USA for Blended Learning Program and Appstar Global which is an AI company with an international presence.

SMART industry consultancy initiative

Artificial Intelligence/ Machine Learning (AI / ML) applicability in Industrial automation

Internationally competent Skill development initiative

- Empowering our younger generation on Emerging Technologies from Industry Experts through awareness programs
- Setting up Artificial Intelligence/ Machine Learning (AI/ML) labs towards competence building
- IEEE certification on EMBEDDED COMPUTING FOR IOT SYSTEMS

The FIRST of its kind in INDIA – An international IEEE certified Blended Learning Program in the emerging & futuristic technology of IOT.

"Embedded Computing for IOT Systems" covers the basic functionality of any embedded system. Jayvish Technologies facilitates the learner through "Learn to design & deliver low power devices" towards acquiring an IEEE certification.

📍 For a FREE orientation on AI/ML tools & technologies

📍 For acquiring international IEEE certification on latest technologies

Tools for Assembly

Metal Housing Ergonomic Cable Tie Tool
for SM, M, I, S ties, Adjustable tension.

Hand-Held Nylon Rivet Installation Tool
Application For Installing and Removing Nylon Rivets.
Overall Length (In.)-9.25, Overall Length (mm)-234.9

Printers & Accessories

Metal Embossing Hand Tool and Tape System

Includes tool, additional marking wheel, carrying case, one roll each META (aluminum) and METS (stainless steel) tape. Characters included: A B C D E F G H I J K L M N O P Q R S T U V W X Y Z 1 2 3 4 5 6 7 8 9 / ()

PanTher Hand-Held Thermal Transfer Printer Kit

The PanTher LS8E Hand-Held Thermal Transfer Printer kit contains the hand-held printer, one cassette of S100X150VAC self-laminating labels, six AA alkaline batteries, the LS8-CASE rigid carrying case, the LS8-PCKIT USB cable and PC interface software, the LS8-IB protective impact bumper, the LS8-WS wrist strap, a quick reference card, and an operator's manual.

Hand-Held Thermal Transfer Printer

The PanTher Hand-Held Thermal Transfer Printer prints on continuous tapes, continuous heat-shrink tubing, die-cut heat-shrink tubing, die-cut component labels, and self-laminating labels. Eliminating label waste and time associated with trimming labels, it has a partial-cut feature, label cut-to-length functionality, and a PC interface, and it is RoHS compliant. It comes with the hand-held printer, PANTHERLINK software, one cassette of S100X150VAC self-laminating labels, six AA alkaline batteries, and a quick reference card.

Thermal Transfer Ribbon

The black hybrid thermal transfer ribbon for Panduit's TDP4-HE series printer is part of the complete line of identification solutions from Panduit. Measuring 1181' (363m) long and 4-H self-laminating, heat-shrink, Turn-Tell, vinyl cloth, tan polyimide, component, and nonlaminated labels. It is available individually or as part of the printer kit.

An USA based end to end industrial & electrical infrastructure provider

- Cabinets, Thermal Management, Racks & Enclosures
- Wire Termination
- Copper Systems
- Fiber Optic Systems
- Grounding & Bonding
- Power, Environmental, Security & Connectivity Hardware
- Signs, Labels & Identification
- Safety & Security
- Wire Routing, Management & Protection
- Audio Video Systems
- Monitoring and Services

Reel-Fed Cable Tie
for PAT1M system
miniature cross section
4.0 (102mm) length
nylon 6.6, natural.

Nylon Natural Cable Ties
Pan-Ty® locking tie, miniature
cross section, 3.9 (99mm) length,
nylon 6.6, natural.

Nylon Cable Ties – TEFZEL

Pan-Ty® locking cable tie,
standard cross section,
7.4 (188mm) length, TEFZEL,
aqua.

Stainless Steel Cable Ties

Pan-Steel® Self-locking Cable Ties speed up installation with a unique self-locking head design that locks into any part of the tie. Plus, the smooth edges of 304 stainless steel promote worker safety in indoor environments. Heavy cross section, Max bundle diameter: 4in, 14.3in, Tensile strength: 2000.

Releasable lashing Cable Ties

Pan-Ty® releasable lashing tie, extra-heavy cross section, 20.1 (511mm) length, weather resistant nylon 6.6, black.

Weather resistance Dome-Top cable ties

Dome-Top® barb ty cable tie, light-heavy cross section, 14.9 (378mm) length, weather resistant nylon 6.6, black.

Base narrow slot Type F Wiring Ducts

The Panduit® type F narrow slot wiring duct has a nominal duct size of 1W x 3H (25.4mm x 76.2mm) and is 6' long. It is light gray and made of PVC

Base type D Round Hole Wiring Duct

Panduit® flush cover type D round hole wiring duct, 1.5 W x 2 H, 6' length, PVC, light gray.

Base type NE halogen free slotted Wiring Duct

The Panduit® type NE halogen-free slotted wiring duct has a nominal duct size of 2W x 3H (50.8mm x 76.2mm) and is 6' long. It is white and made of modified polyphenylene oxide (mPPO).

Type C Cover for Flush Cover Wiring Duct

Duct cover, .75 W x 6' length, PVC, white.

Type C Cover for Flush Cover Wiring Duct

Duct cover with protective film, 2 W x 6' length, PVC, black.

4 way adhesive Cable Tie Mount

The 4-way adhesive backed cable tie mount in white is mounted with rubber adhesive tape. It is 0.75" long x 0.75" wide (19.1 x 19.1 mm) and made of ABS plastic. It is used with miniature and intermediate cable ties. It is designed for indoor environments.

Swivel Tie Mount

The swivel tie mount in black is made of weather-resistant nylon 6.6, which increases mechanical strength, heat and wear resistance, and stiffness in outdoor environments. It is used with cable ties miniature, intermediate, standard, and light-heavy cable ties.

Extra heavy Cable Tie Mount

The extra heavy cable tie mount in black is applied with a #10 (M5) screw. It is made of weather-resistant nylon 6.6, which increases mechanical strength, heat and wear resistance, and stiffness in outdoor environments.

Winged push barb Cable Tie Mount

The winged push barb cable tie mount requires a 0.250" (6.5 mm) hole and is natural color. It is made of nylon 6.6, which increases mechanical strength, heat and wear resistance, and stiffness.

Aerial Support Tie Mount

The Aerial support tie mount is in black with integral 1/2" (12.7mm) spacer for support strand applications is made of weather-resistant polypropylene. It is 10.0" long and 0.45" wide (254.0 x 11.4 mm), features a releasable locking style and can support a maximum bundle diameter of 2.5" (63.5 mm). It is designed for outdoor environments.

Fir tree push Tie Mount

The fir tree push mount assembly is black and requires a panel hole diameter of 0.25 to 0.28" (6.3 to 7.1 mm). It is made of heat-stabilized nylon 6.6, which increases mechanical strength, heat and wear resistance, and stiffness.

Tin-Plated Copper Compression Connectors - Lugs

One-hole, standard barrel with window, narrow tongue lug, 3/0 AWG wire, 3/8 stud hole.

Two-hole, long barrel lug, 500 kcmil cable, 1/2 stud hole, 1.75 hole spacing.

Mechanical Connectors-Lugs

Two-hole, copper, single barrel, offset floating tongue lug, slotted screw, #14 - #6 AWG, 3/16 (4.8mm) stud hole

Loose Piece Ring Terminal

Tubular Ring Terminal, 6 AWG, 1/4 stud size, non-insulated.

Pre-Printed Wire Marker Label Book

Pre-printed Wire Marker Books are conveniently pocket-sized, containing wire labels printed on vinyl cloth. Markers are durable enough for up to 5 years outdoor UV Resistance, oil and abrasions. They can also be torn in half to label each end of the conductor.

Voltage Marker Labels

Voltage marker, 4.5" W x 1.13" H, '120 Volts' (legend), vinyl, black/orange, 4/card, 5 cards/package.

T1000 printer

PROMARK T1000 is a series of very practical and compact marking machines from Partex. Low weight, small size and handy bags and cases make carrying them, from the office to the construction site, trouble-free and safe.

Promark printers can be connected to a PC and controlled from the latest Partex Promark Creator software, or used standalone, without connecting to a computer.

MK10-Squix - Heavy duty marker printer

- The latest professional, efficient printer for making large quantities of markers for cables, wires and electrical devices.
- It feeds, prints and perforates bulk Partex profiles.
- USB or wifi connection, controlled with Partex Promark Creator software.

Mounts and bases

Mounts and bases made of nylon and steel. They are designed for routing and securing wires and cable harnesses. Black mounts are resistant to UV radiation and suitable for outdoor. Self-adhesive bases for cable ties, made of rigid Nylon6.6. Easy method of mounting, self-adhesive base and four opposite tabs enable quick and comfortable application.

Durable and resistant network cable designed for securing and protecting wire harnesses, hoses and cable connections from mechanical and environmental damage.

- Supaflex protective sleeves are ideal for protecting and securing panel cabling.
- Ease of use and availability in a full range of sizes.
- Low smoke, halogen-free.
- Resistant to weather conditions and UV.

SW - Spiral wrap

Spiral wrap manufactured from polyethylene, used as a flexible wire and cable harness, ensures mechanical protection of wires, cables and lines. It can be used for securing wire connections and as an organiser by control panels and cabinets

- Spiral tubes for making wire and cable bundles.
- Durable and reusable, they retain a spiral shape.

Wire & Cable strippers

The Partex range of insulation stripping tools includes: a simple CCS1 insulation stripper for coaxial cables, the RCS1 rotary insulation stripper with adjustable cut depth, the semi-automatic PWS series insulation strippers for cables, and hand-held semi-automatic insulation strippers with a cable stripping function, the PWS-GUN1 and PWS-GUN2.

RCS1 - Insulation stripper for cables

PWS-GUN1 - Insulation stripper for cables

PRCC-400 - Ratchet cable cutter for cables

SUP - Braided cable sheathing

PA Markers

One-character markers in the form of single digits, symbols and letters which are combined to produce the required legend. Markers are slid on to the wire before it is terminated. Symbols are hot-embossed, they have high environmental tolerance and excellent legibility.

Oval printable profile in a wide range of available sizes. Oval printable profile on your own on Partex thermal-transfer devices.

- Oval profile for identifying cables and wires.
- Quick installation - all information contained on one sleeve.

Heat shrink sleeves

Flat, fire resistant, halogen-free heat shrink profile for printing on your own on Partex equipment.

- Flat, thin-walled heat-shrinkable tube made of halogen-free material.
- High resistance to low and high temperatures.
- Very low gas emission during a fire.
- Fireproof.
- Shrink ratio 2:1.

PM - Marker sleeve for cables

- Transparent holder used to mark cables with PF labels, PFC cards or a PP+ profile.
- Available in four sizes, mounted using cable ties.
- Can be installed on cables with very large diameters (depending only on the length of the tie).
- The label is easily inserted into the holder, which ensures quick installation.
- The holder protects the label against damage.

PK+ - Single character markers for holders

- Single character markers for creating sequences on a holder, fastened onto the cable with cable ties.
- New, improved formula and elastic material enable the application of the marker directly on to wires
- The characteristic shape of the marker ensures a stable position on the wire and protects it from rotating.
- Fast assembly on the PKH or POH carrier, fastened with cable ties.
- Possibility of arranging any combination.

Self-locking nylon cable ties with high tensile strength. The virgin Nylon6.6 material features high resistance to oils, lubricants, paints, varnishes and alkalis. Ties are also available in a UV-resistant version.

- One-piece molded nylon 6.6 non-releasable cable ties
- Self-locking, high-strength assembly
- Manufactured in accordance with MIL M20693B and UL94V-2 standards.
- Bent finger grip and low threading force for quick installation.
- Smooth rounded edges.

Insulated crimp terminals

- Insulated terminals are designed for terminating multi-stranded copper cables and facilitating different types of connection.
- They are coated with high grade PVC insulation, at the factory, which ensures full terminal integrity.

A Swedish based world leader in industrial marking products for the identification of wires, cables, pipes and components.

From the individual electrician to the world's largest companies, unique marking systems contribute towards increased efficiency and higher safety levels.

An USA based manufacturer of connectors, fittings and tools providing reliable solutions to data centres and telecom industries.

- Data & Communications-Connectors, Grounding & Bonding, Hardware, Inhibitors, Contact Aids, and Sealants, line construction hardware, tools dies & accessories, Wire / cable / hose management.
- Electrical & Electronic- Wire/cable /hose management, compression connectors & terminals, Grounding & Bonding, hardware, Inhibitors, Contact Aids, and Sealants, mechanical connectors & terminals, hardware, tools dies& accessories
- Power & Utilities-connectors, fasteners, Inhibitors, Contact Aids, and Sealants, line construction hardware, tools dies& accessories, underground separable connectors, utility switching and fusing.

Penetrox A

PENETROX A consists of petroleum base in which zinc particles are suspended. For aluminum to aluminum, aluminum to copper applications and aluminum conduit threads. It is not recommended for use with rubber and polyethylene insulated conductors. UL listed to 600 volts.

Penetrox A-13

PENETROX A-13 consists of non petroleum base in which zinc particles are suspended. For aluminum to aluminum, aluminum to copper applications and aluminum conduit threads. UL listed to all voltages

Penetrox E-

PENETROX E consists of a non-petroleum base in which copper granules are suspended. Recommended for copper to copper applications, grounding and for use on Copper conduit threads. It is compatible for use with rubber and polyethylene insulated conductors. UL listed to 600 volts.

Liebert Lug

An USA based safe electrical solution provider for industrial, outdoor and hazardous location communication requirements and also for the marine & healthcare markets.

Power factor correction solutions

- **Data & Communications** Connectors, Grounding & Bonding, Audio -Video, patch cords, patch panels, plates-frames-housings, racks and enclosures, residential enclosures and modules, tools dies & accessories, Wire/cable /hose management
- **Electrical & Electronic** Wiring Devices, Wire/cable /hose management, hospital products, Wall plates, marine products, floor boxes, Fire-Rated Poke-Throughs , Power Quality & Conversion , boxes, EV charging stations,.

Wiring devices

Hubbell Wiring Device Kellems, Straight Blade Devices, SNAP-ConnectDecorator Duplex, USB Charger Receptacle, Hospital Grade, 15A 125V, 2-Pole 3-Wire Grounding, 5-15R, 5A "A" and "C" Charger Ports, Brown

Industrial plugs

Straight Blade Devices, Male Plug, Insulgrip, Hospital Grade, Straight, 2-Pole 3-Wire Grounding, 20A 125V, 5-20P, Clear, Single Pack.

- Beveled housing prevents snagging
- Powerful, offsetting cord grips clamp on individual conductors

Connectors

HI-IMPACT Connector, Category 6, Universal, Gray

- O-Rings for moisture protection
- Housing made from high impact polymer
- Category 6 and 5e component connectors
- Standard Hubbell Keystone Latching System, IP67 Protected Connection

Server cabinet box

Cabinet Components, QUADCAB 24" H x 20" D, Window Door, Black Door with Window
Cabinet Components, QUADCAB 48" H x 36" D, Window Door, Black Door with Window

Time relays

- ETD time relays from Phoenix Contact are the cost-effective alternative to a PLC: with easy configuration and fast wiring. Choose from three product ranges for your time control application.
- Optimum time sequences that can be set exactly, ranging from milliseconds to several days. Easy handling. Save space and time

Trabtech

The range of surge arresters goes under the name **TRABTECH** (Transient Absorption Technology). A suitable protection module can be selected from the wide **TRABTECH** arrester range to suit the respective application and the performance requirements for the surge protection

- Quick and easy, thanks to preprinted terminal markings
- Can be customized with various printing systems
- Convenient: can be printed by our marking service
Everything from a single source: markings also available for terminals from other manufacturers

Terminal marking

Interface Components

The Interface range offers all the modules for industrial control needed for the signal conditioning of digital, analog and signals, such as signal convertors, Switching devices and cabling solutions.

COMBICON baseline is the PCB terminal block and connector range for connection solutions for building automation. The market leader in industrial connection technology and designed the **COMBICON** baseline range to meet customer requirements.

Combicon Connectors

A German based digitalisation solution provider to discover creative solutions for a SMART world.

- Tailor-made turnkey system automation
- Innovative solutions for the process industry
- mGaurd service cloud : turnkey remote maintenance
- Transportation Infrastructure

- Cables and lines
- Charging technology for e-mobility
- Connectors
- Electronic switching devices and motor control
- Electronics housings
- Functional safety
- HMIs and industrial PCs
- Industrial cloud computing
- Installation and mounting material
- Lighting and signaling
- Marking and labeling
- Measurement and control technology
- Monitoring
- PCB terminal blocks and PCB connectors
- PLCs and I/O systems
- Power supplies and UPS
- Protective devices
- Relay modules
- Sensor/actuator cabling
- Software
- Surge protection and interference filters
- System cabling for controllers
- Terminal blocks
- Tools

Relay Modules

The relay modules also enable you to safely disconnect and switch signals in potentially explosive areas.

Relay Module - PLC-RSC-24DC/21

PLC relay, consisting of base terminal block PLC-BSC-24DC-21 with screw connection and pluggable miniature relay with power contact, for assembly on DIN rail NS 35/7.5, 1 PDT, input voltage 24 V DC

Crimping Tools

Mechanical crimping pliers can be used to crimp all types of contacts safely and effortlessly.

Ethernet Switch

Industrial Ethernet has become a proven and established solution in automation as it is consistent, fast, and extremely flexible.

PCB connectors

Implement maintenance-friendly PCB connections for signals, data and power

Monitor and safeguard processes

Keep an eye on your system parameters at all times and respond quickly to any deviations – with our monitoring products.

Functional safety

Intelligent safety solutions for high system availability, components, technologies, and services for the safety of machinery.

Connectors

Connectors for signals, data, and power offer an impressive solution for every application.

Data connectors for copper and fiber optic cabling. The product range includes assembled cables, flush-type connectors,

PLUSCON

Superior system availability, for example, thanks to the unique development of SFB Technology. Operational safety, thanks to extremely high-quality components. Flexible use: wide temperature range and adjustable output voltage.

Range of Power supplies

- QUINT POWER – Maximum functionality
- TRIO POWER – Standard functionality
- UNO POWER – Basic functionality
- MINI POWER – For measurement and control technology
- STEP POWER – For installation distributors and flat control panels.

Surge protection and interference filters

- Surge protection for power supplies
- Surge protection for MCR technology
- Surge protection for information technology
- Surge protection for transceiver systems
- Surge protection for renewable energy
- Test device for surge protective devices
- Lightning current measuring
- Interference filters.

High-frequency, low-energy interference can be smoothed and eliminated using interference filters. Meanwhile lightning and surge protective devices provide protection against transient and high-energy voltage peaks.

Sensor/actuator cables

Sensor/actuator cables from the comprehensive and consistent product range

- M8 male and female connectors (3-, 4-, 5-, 6-, and 8-pos.)
- M12 male and female connectors (3-, 4-, 5-, 8-, 12-, and 17-pos.)
- 1/2" male and female connectors (2-, 3-, 4-, 5-, and 6-pos.)
- 7/8" male and female connectors (3-, 4-, and 5-pos.)

Marking and labeling

Marking materials and their markings must remain intact, regardless of the area of application. The quality of the marking must remain constant.

Device circuit breakers

- Thermomagnetic device circuit breakers for overload and short-circuit protection
- Electronic device circuit breakers for overload, short-circuit, cable attenuation, & high input capacitance protection

Sockets and service interfaces

Maximum possible flexibility for various applications: use the service interface from Phoenix Contact in control cabinets, infrastructure components, and devices in harsh industrial environments.

PLCs and I/O systems

whether programmable logic relay systems or high-performance PLCs, in the control cabinet or the field, the wide range provides you with creative automation solutions.

Terminal blocks

- Push-in connection
- Spring-cage connection
- Fast connection
- Screw connection
- Bolt connection
- Barrier connection
- Special connection
- Distribution blocks
- Terminal blocks for protection and control engineering
- Terminal blocks for photovoltaics
- Terminal blocks for process technology
- Product list Accessories
- Planning and marking software

Push-in, screw, spring-cage, fast, or bolt connection, all of these connection technologies can be freely combined with each other using the same accessories, thanks to the double function shaft.
